English, Hindi, Marathi,

About Me

Passionate software developer with expertise in Java Spring Boot, MERN stack and database management. Skilled in building scalable web applications, interactive user experiences, and robust backend systems. Strong problem-solving abilities with a focus on efficiency, performance, and clean code architecture.Continuously learning and adapting to new technologies to deliver innovative and impactful applications.

Professional Experience

Numetry Technologies | Software Developer Intern
01/2025 - Present

- Built full-stack applications using MongoDB, Express, React, and Node.js.
- Designed and implemented secure authentication features.
- Developed interactive UI components with React.js.

SIBIC Businesss Incubator | Java Spring Boot Intern
07/2024 - 01/2025

- Developed and optimized RESTful APIs for web applications.
- Implemented Hibernate for efficient database interaction.
- Enhanced security features in web applications.

GrappItech | Software Developer Intern *07/2024 - 08/2024*

- Full-stack web development with hands-on experience in HTML, CSS, and JavaScript.

Triplet's Services | Student Intern *07/2023 - 08/2023*

- Gained hands-on experience in designing complex queries, optimizing database performance, and managing data integrity.

Projects

- **Typing Speed Battle Game** -Built a fast-paced typing game using the MERN stack with real-time score tracking and dynamic word challenges.

- **Portfolio Website** – MERN stack-based personal portfolio showcasing projects and skills.

- **Student Marks Evaluation System** – Web app for automated grade calculation, real-time reporting, and academic efficiency.

- **College Fees Management System** – Desktop software for student registration, payment tracking, and financial reporting.

- **Algorithm Visualizer** – Interactive web app for visualizing sorting and graph algorithms step by step.
